**Subject:** IKEC Evaluation of Indiana CCR Permitting Authority  
**Attachments:** Indiana Kentucky Electric Corporation CCR Position Paper May 28 2021.pdf

Dear Mr. Thill,

Attached below please find a letter outlining IKEC's evaluation of IDEM's CCR permitting authority as well as our support of Public Law 100-2021. This letter also outlines IKEC's ongoing concerns with IDEM's imposition of requirements for CCR surface impoundments that go beyond the federal CCR rule. As stated in the letter, IKEC prefers to continue to try and work with IDEM to resolve these items and obtain a permit for closure of our CCR surface impoundment that is consistent with the federal CCR rule.

We look forward to continue to try and work with IDEM to resolve the issues identified herein.

Sincerely,

J. Michael Brown  
Environmental, Safety & Health Director
